Four years chasing this dream
Then i realize it's just that
Four years chasing this bee
Then i realize i hate being stung
To live by all my words
Just to die by my own sword
No more chasing this dream
I've spent all my energy
Four years to get in the machine
To realize "fuck the machine"

To live by all my words
And die by my own sword

I've been burned before
But i've been true
I've been burned before
I gave up on you
And i'll be burned again
But this time i won't flinch
