Give me my history  
Some life's ideologies  
A change of scenery  
For some greenery  
Only if you live there  
I wish there were more i swear  
Living alone in there  
Until you match their bet

Things are changing  
My patience  
I still love you  
There's no relenting  
Things are changing  
My patience  
I still love you  
So don't forget it

After the laughter ends  
We'll remain as friends  
Its not the common trend  
Guess it all depends

Things are changing  
My patience  
I still love you  
There's no relenting  
Things are changing  
My patience  
I still love you  
So don't forget it
