Don't go home, my little darlin'
Please don't leave the party yet
Don't go home, my little darlin'
Now that we have finally met
Can't you see I came to the party
'Cause I knew that you'd be here
Dance with me & stay at the party
So that I can hold you near

Don't go home, my little darlin'
Please don't leave the party yet
Don't go home, my little darlin'
Now that we have finally met
I have waited long for the party
'Cause I knew we'd finally met
When I saw you here at the party
Something made my world complete

(x3):
Stay just a little bit longer
Please, just a little bit longer

(repeat & fade):
Don't go home, my little darlin'
Please don't leave the party yet
Don't go home, my little darlin'
Now that we have finally met
