These times will try the hearts of men once carved in
stone
Brother against brother poison spread within our own

Tonight you die a traitor's death
A short drop a sudden stop
You know no honor
And now you're shown for who you are
Tonight you die a traitor's death
A short drop a sudden stop
You know no honor
And now

So part you lips bring forth a tongue yet Judas borne
Left handed strokes with two edged blades land where
they may
A back the best target and truth avoids you still
Cowards, liars, traitors; this song was meant for you

Tonight you die a traitor's death
A short drop a sudden stop
You know no honor
And now you're shown for who you are
Tonight you die a traitor's death
A short drop a sudden stop
You know no honor
