Apocalypse juggernaut.
Engine of war.
Piercing your chest with pure hate.
Twisting within the great heart of all things.
Exist only to obliterate.

A cavern of stars.
The swallowing maw.
Feed of filth and greed.
A tower of hate.
The tyrant awaits.
This juggernaut must feed.

I will strike with the vengeance of a thousand hearts.
At a world that drew first blood.
Pulsing with scorn.
A nightmare made flesh.
I am vengeance.

Tear out your chests, all you sinners and saints.
Victims one and all to me.
I am the spawn of the end of all things.
Reaper of a world diseased.

I am vengeance. I am scorn.
I am revenge. I am war.

I will burn with the heat of a thousand suns.
And scorch the very gates of hell.
Pulsing with scorn, a nightmare made flesh.
I am vengeance.
