His mouth's whole lot of dirty words  
The church sings out of mighty chords  
Rather speak none clue  
Than make a world a zoo

He drank whole lot of lot of booze  
Nerve strips on the marbles blues  
In a poor old Reagan views  
I'm fighting while I'm confused

Just say no  
Let it go  
Say no just let it go

He lost whole lot of honesty  
Mosque spread new prophecy  
In a poor old Reagan views  
I'm fighting while I'm confused

He drank whole lot of lot of booze  
Nerve strips on the marbles blues  
In a poor old Reagan views  
I'm fighting while I'm confused
