Don't wanna live without attraction
No wanna feel all there is to feel
To many things fade out to nothing
So I wanna know how you really feel

Who are you and who am I

I say don't fake the real thing
Don't fake your love
Don't fake the real thing
Don't fake your love
Don't fake the real thing baby

I wanna feel the right connection
I don't wanna live in a fantasy
I wanna fall without protection
And I wanna give you the best of me

Do you know me, do I know you, I wish I knew
So baby don't fake your love
I waste your time, and you waste mine
If we don't believe in the real thing
Don't fake your love
