I've got my finger on the phone
I never thought it'd take me so long
Girl, don't ever let them put you down
Don't ever let them push you around.
Crush, and all the things I left behind
And when I started think of it there be another time
Oh, never mind
And I am

I'm electric I just want to dance
I'm electric I just want to dance
I wanna be loved by you
I'm electric I just want to dance
I'm electric I just want to dance
I want to be loved by you

And when the night is closing in
oh, can you hear me calling within

Crush, and all the things I left behind
And when we take the stage tonight you'll be on my
mind
yes you'll be the one and I am

I'm electric I just want to dance
I'm electric I just want to dance
I wanna be loved by you
I'm electric I just want to dance
I'm electric I just want to dance
I wanna be loved by you

And when we take the stage tonight you'll be on my
mind
yes you'll be the one

And I am

I wanna be loved by you
I'm electric I just want to dance
I'm electric I just want to dance
I wanna be loved by you
