"You Are Not Alone"

Visit "[You Are Not Alone](#)" on MotoLyrics.com

You are not aware
You are not aware how good you are
Don't have to make it so hard
You are not alone
You are not the only one that hurts
We always make it so hard
But you're not alone

You really came in the right time
Falling down from nowhere
The two of us through universe
A drop beneath the ocean
Forever

You and I alone
So in love we float above the night
The stars are falling so hard
From this point of view
All our troubles seem to fade away
Up here they all seem so small
Oh so very small
