Night so wicked in down town
The time is right yeah to go out in the dark
We came in wolfpack to the underworld scum
Take another booze
See the dancing of the demon whore!

Night demons
Devil's game

She is calling through her movements
Come into the feast
Laughing and boozing calling six six six
Come into the feast

Hey! she is looking at me
Feline-eyed girl whisper in my ear
Throw my soul into flames
Take another booze
She is casting all her spells on you!

Night demons
Devil's game

She is calling through her movements
Come into the feast
Laughing and boozing calling six six six
Come into the feast
