

Melody Gardot "Lover Undercover"

Visit "[Lover Undercover](#)" on MotoLyrics.com

I don't need anything more than I got
I'll make it simple when others may not

Whenever you need some company
Some love of a different kind
Come to your lover, undercover
And let me ease your mind

Whenever your heart beats heavy
And worry has got you down
Come to your lover, undercover
And I will turn your mood around
Why you wanna leave
When it's so easy just to stay?
Lying wrapped up in my arms
Until the break of day
Undercover

Why you wanna leave
When it's so easy just to stay?
Lying wrapped up in my arms
Until the break of day
So

Whenever you need a soft touch
Know my demands are small
Make me a lover, undercover
Or don't ever love me at all
