We've almost lost it all,
And we're sinking fast with no more chances
We've almost lost it all,
Shut down with no place to go
We've almost lost it all,
And we've fucked up for the last time

Chain fights at an all age show, that shit has to go
We've got the means for change at our finger tips
But all these kids are caught in their ego trips
They say the scene is dead
So kids let's evoke the spirit
We can't let this get the best of us,
We won't fuck this up again no!

We've almost lost it all,
And we're sinking fast with no more chances
We've almost lost it all,
Shut down with no place to go
We've almost lost it all,
And we've fucked up for the last time

[Dancy Part]

We're sinking, sinking fast. [x8]
One step forward and three steps back
we're giving them too much slack
Following a trend and not your heart
Starting right back from the start.
We're sinking, we're sinking, we're sinking, sinking fast.

We can't, and we won't let it hold us back. [x5]
