International War Criminal; (War Criminal)
Information is Minimal; (War Criminal)
Weapons of distruction they are gasoline and
petrolyium; (War Criminal)
But are you sticking around to see what happens; (War
Criminal)
Are you sticking around to see what happens;

In the old days all them teachers taught me
In the old books that their Cold War bought me
They said like diamond owns this;
Whole wide world could;
Fall to peices like they wish the Middle East would;

But International War Criminal; (War Criminal)
Information is Minimal; (War Criminal)
Weapons of distruction they are gasoline and
petrolyium; (War Criminal)
And are you sticking around to see what happens; (War
Criminal)
Are you sticking around to see what happens;

I heard they found one; (I heard they found one)
While in a hole, man; (While in a hole, man)
White lights crawlin' on his brown skin; (White lights
crawlin' on his brown skin)
But ain't it shameful just being human;
Its all just that original sin that
White lies always creepin' in;

But International War Criminal; (War Criminal)
Information is Minimal; (War Criminal)
Weapons of distruction they are gasoline and
petrolyium; (War Criminal)
And are you sticking around to see what happens; (War
Criminal)
Are you sticking around to see what happens;
Are you sticking around to see what happens;

International rules of war gets broken;
Its funny how they'll go and define terror as

Killing and exploding things from four so long
together;

But International War Criminal; (War Criminal)
Information is Minimal; (War Criminal)
Weapons of distruction they are gasoline and
petrolyium; (War Criminal)
And are you sticking around to see what happens; (War
Criminal)
Are you sticking around to see what happens;
International War Criminal; (War Criminal)
International War Criminal; (War Criminal)
Situation, Lord is pitiful; (War Criminal)
International War Criminal; (War Criminal)
International War Criminal; (War Criminal - Fuck Yeah!)
International War Criminal; (War Criminal - Pee Cee!)
International War Criminal; (War Criminal)
International War Criminal; (War Criminal - Fuck You!)
International War Criminal; (War Criminal)
War Criminal;
