So tell me more about my situation  
And evil men who are coming for my nation  
And evil forces who are coming for my freedom  
Secret Congress, nobody ever seen them

Propaganda (propaganda)  
Now it's everywhere I look  
It's a propaganda (propaganda)  
it's just like history book  
Propaganda (propaganda)  
Everywhere I go  
Hey Mista (Mista please!)  
Well tell me what you know

Cause if someone wants to make a confrontaion  
Well they wont get no play on your radio stations  
And they wont get no time on the television  
Words been send out from the owner corporation

For propaganda (propaganda)  
Now it's everywhere I go  
It's a propaganda (propaganda)  
It's on my tv shows  
Propaganda (propaganda)  
Everywhere I go  
Hey mista (mista please!)  
cmon tell me what you know  
Hey mista can you tell me what you know

Well I'll tell you what I know  
When your congressmen to your president  
are all business men just schemin  
telling who's your enemy and who's your friend  
Well i'm not sure that I believe it  
When the street sign posters are encouraging me  
peepin' to report my local terrorists and the company  
they're keepin

It's propaganda (propaganda)  
now it's everywhere I look  
Its propaganda (propaganda)

Man its just like in history books  
Propaganda (propaganda)  
It's everywhere I go, well tell me mista (mista please!)  
Cmon tell me what you know

Like who are they and what ???  
Cause there aint no names and no crimes  
written in my paper  
The racial prisoner who is wondering  
why charge is secret meetings in taxi cab garages

Propaganda (propaganda)  
Now it's everywhere I go  
Another propaganda (propaganda)  
Man it's on my radio  
Propaganda (propaganda)  
Everywhere I go  
Hey mista (mista please!)  
Cmon tell me what you know  
Hey mista  
Well can you tell me what you know
