you must be good, so that you can sleep at night  
you must be good, so that your mamma can hold you  
tight

and you must be good, or the devil come lick you  
you must be good, dont let him trick you

oh every day, tempted by temptation  
and every night by another situation  
but you must be wise ,be wise and reckoginze  
or the devil come pull you down in a girlish disguise

(chorus)

avarice and envy, lord these sins are deadly  
greed and vanity, they hurt a good man plenty  
but you must beware,and take care in your youthful  
insobriety  
your cup may be full now but in the end it will be empty.
