Love is homeless  
Where is  
Love is shapeless  
Who needs  
Love is dangerous  
Love is true

The more you give the soft machine  
The more you give the song  
I would live for you with all my  
Give to you with all my  
Daggers and swollen kisses  
And so that is proof that love is death

There's no ear that would or could Listen to all there is  
to say  
About small wooden toys  
Or broken shells, tiny bells or songs about a lady

The more you clean the soft machine  
The more you lead me on  
I would live for you with all my  
Give to you with all my  
Daggers and swollen kisses  
And so I think that that is proof that love is death
