When you first found love
Was it all that you had wanted
For a thousand lonely years
Was the memory so sweet
Now your scented touch
Brings me back to the enchanted
The shadows fade away
The gypsy is complete
Chorus:
Someone is walking beside me
Someone is waiting till I say yes I do
Someone is living inside me
Giving me all that I need and I need you
Someone to cry on my shoulder
I want you to stay here forever
From the secret pool
Did I stare at your reflection
Let the water wash away
All the battle from my soul
For the bridge of spring
Do I swear to your protection
Today will be the day
That never shall grow old
Chorus
Someone to cry on my shoulder
I want you to stay here forever
Silence broken and the blackbird is free
Only your voice can I hear speak to me
Chorus(3x)
