"Still In Love"

I'm still in love with the girl
It's so hard, now she knows I'm on my own
I, I watch her come and I watch her go
She's knows my name and she thinks I'm lame
It's like a game, I'm lost and I don't know which way to
turn

She, she takes me to another world
I turn around, face the crowd and let it out
I'm so afraid I've been betrayed
I just can't wait until the day I find the words to say
The things I feel about her now

She's such a tease and hard to please
So come on girl, I'm on my knees, set me free
At last I'm losing it, bit by bit
You've gotta help me to find some peace of mind; I am
so blinded
I am still in love with the girl
She is my night and my day
She has become my every word I say
