

Air Supply "Strangers In Love"

Visit "[Strangers In Love](#)" on MotoLyrics.com

Strangers in love
Must a star fall from the sky
It's stranger than most
And stranger when we try

To understand it all
Why we fall
As strangers in love
Strangers in love

Straight from the farm
And a world apart and ready for
Someone to take her arm
She's never seen a movie
What an innocent face
What an innocent place

It's natural, it's an easy thing to do
Natural, it's an easy thing to do
Strangers in love
And a star fell from the sky

Don't know which way to turn
Don't know which boat to burn
Don't know which way to turn
Don't know which boat to burn

Strangers in love
Strangers in love
Strangers in love
