I feel just like your love tonight  
So who's to say, I'm wrong  
I've got to say, I feel just right  
It's never been so strong

There seems so many points to make  
But I feel this is a big mistake  
We're so old and this is new  
But I've really got to tell you

I always said that you should remain free  
But that was up to you and not to me  
I started strong, but I met someone  
You know how long it's been

That's how the whole thing started  
That's how the whole thing started

That's how the whole thing started  
That's how the whole thing started  
That's how the whole thing started  
That's how the whole thing started

That's how the whole thing started  
That's how the whole thing started  
That's how the whole thing started  
That's how the whole thing started

Baby, baby it's wrong  
But I've been in and out of love so long  
Here we stand not more than friends  
I broke your heart again

That's how the whole thing started  
That's how the whole thing started  
That's how the whole thing started  
That's how the whole thing started

Sit down with me  
And we can talk about it peacefully  
We're under the strain of a losing game  
That's how it must be

That's how the whole thing started  
That's how the whole thing started

That's how the whole thing started  
That's how the whole thing started  
That's how the whole thing started  
That's how the whole thing started

That's how the whole thing started  
That's how the whole thing started  
That's how the whole thing started  
That's how the whole thing started

I feel just like your love tonight  
So who's to say, I'm wrong  
I've got to say, I feel just right  
It's never been so strong
