Fragile, handle with care
You fall in love then you lose your head
For the last 24 hours,
Well I've been crying my heart out

This time hoping for the better
Been down seems like forever
For the next 24 hours
Well I'm yours ohhhhh

You said it was love for the first time
Oh baby baby be mine
'cause I'm in love in love in love in love with you

It's all good, you don't have to worry
I'm not like that, I'm not in a hurry
Take your time I'm not going nowhere
If you go I will always follow

You said it was love for the first time
Oh baby baby be mine
'cause I'm in love in love in love in love with you with
you with you with you
With you oooh

Would I lie to you?
I've never had a reason to
Something I would never do never do never do
Heeyy

You said it was love for the first time
Oh baby baby be mine
'cause I'm in love, in love, in love, in love with you

You said it was love for the first time
Oh baby baby be mine
'cause I'm in love, in love, in love, in love with you, with
you, with you, with you, with you
