### "4 Songs & A Fight"

It all happened so fast that night  
As I remember it there was a fight  
It all went black and the race was on  
Behind the closed door there's no light  
And I will tell you it felt so right

*[Chorus]*

Everybody knows when it's on, here we go!  
Laugh all you want but it's totally outlawed  
there's no control of its own  
Go! Go!

It all happened so fast last night  
The way we lived we felt so alive  
I saw a flash in the corner of my eye  
Behind the closed door there's no light  
Yeah it was only 4 songs & a fight

*[Chorus]*

The beginning of the end, that is your home  
Don't spread your disease when you come to my town  
we're killing off a lonely son

Trying to remember it, slow  
Was I really part of it? No!  
Forgive and not be crucified by you

*[Chorus 2X]*

The beginning of the end, that is your home  
Don't spread your disease when you come to my town  
There's no control of its own  
No no control of its own  
Go! Go!
