

The Sounds

"Together"

Visit "[Together](#)" on MotoLyrics.com

Everyone's had a day like yours,
But you should know that you're not alone,
'Cause we'll be there with you always,
Call us up. Let's go!

I know when I go low,
I know where I can go,
Find those who help me,
And I find out why so,
I know it's hard to know
Exactly where to go
I find my way so no one else
Can feel left out (?)

[Chorus]
And when you feel let down
No one wants to be around
It's alright, we'll stay by your side.
And we'll get through it together

Some days are dark, I know.
That's why I think it's important to
Surround ourselves with friends who stay close
Feel stronger are along
Go on you always know that
If you need help I'll be there tomorrow.

[Chorus]
I know you're feelin' down
No one wants to be around,
It's alright, we'll stay by your side.
And we'll get through it together.

[Chorus x3]
[in the background:]
(I know you'll always be around,
To pick me up when I fall down,
Keep my feet safe on the ground [x3])
