Hey, did you hear about the time she walked away?  
Visions of the past time haunt you,  
and now it time to face your problems here,

So can I?  
Remember all the times,

It's amazing how your life can change so fast,  
I was there for you were never there for me,

So can I?  
Remember all the times,

Cause I never wanted to let this go,  
Things have changed and you know,  
What am I supposed to do with my life?  
When there's nothing, left to lose

Hey, did you hear about the time she walked away?  
Visions of the past time haunt you,  
and now it time to face your problems here,

So can I?  
Remember all the times

Cause I never wanted to let this go,  
Things have changed and you know,  
What am I supposed to do with my life?  
When there's nothing, left to lose

I hope you meant what you said,  
This game is on tonight
