You know I've got a lot of love and I'm here to let it out
Now something's in the way and it's not what I'm all
about
And it's often that the reason is it's coming from me
I'm getting fuckin' frustrated cos it's not the way I want
to be
It's not the way I think I'm supposed to be
It's not the way I think I'm supposed to be
Now I got a lot of love and I'll give it to you
Now there isn't any reason cos it's just what I'm made
to do
But I see a lot of people who are making it hard
Got me trippin' on the things they got in their own
backyard
It's not the way I think I'm supposed to be
It's not the way I think I'm supposed to be
And they tell me it is not what you know
Women who you know
How much can you lose
It's not the way I think I'm supposed to be
It's not the way I think I'm supposed to be
