You know I'd like to see  
Everybody get  
Along with everyone  
But that's not gonna happen  
You know I'd like to see  
Everbody get  
Along with everybody every day

'cause once it takes you too far, you can't go back  
Once it takes you too far, you can't go back again

You know I'd like to see  
Everybody get  
Along with everyone  
But that's not gonna happen  
You know I'd like to see  
Everbody get  
Along with everybody every day

'cause once it takes you too far, you can't go back  
Once it takes you too far, you can't go back again

Once it takes you too far, you can't go back  
Once it takes you too far, you can't go back again
