Get with it

Walkin' through the moonlight

Till the sun gets in my eyes

Holdin' on to midnight

As we grab the sunrise

We'll have it made together

We'll have it made, yeah

Every hour of our love

But now we'll understand

Most love is hollow

But ours is clear to stand

We'll have it made together

We'll have it made, yeah

'Cause when we build all our dreams come true

And every day we'll find things to do

Could we make this love as endless as time

Together we will leave tears behind

Ridin' high on the future

We know which way to climb

We always do us

And we get it all the time

We'll have it made together

We'll have it made, yeah

Ooh

(Hey, have it made)

We'll have it made

(Hey, have it made)

Ooh... oh... alright

'Cause when we build all our dreams come true

And every day we'll find things to do

Could we make this love as endless as time

Together we will leave tears behind

Ridin' high on the future

We know which way to climb

We always do us

And we get it all the time

We'll have it made together

We'll have it made, yeah

Get with it

(Hey, have it made)

We'll have it made

(Hey, have it made)

Ooh... ooh... baby

(Hey, have it made)

Baby, have it made

(Hey, have it made)

Oh...

(Hey, have it made)

We'll have it made

(Hey, have it made)

Ridin' on the future

(Hey, have it made)

(Hey, have it made)
