"I Need You"

Out in the sunlight
No peace I can find
Caught up in the nights and the days we spent
IÂ'm down on my knees babe
You be like I please baby
No one needs a woman like I need you
I have got something to give
If you feel like taking it
Come on baby sit beside me we could be alright
IÂ'm down on my knees babe
You be like I please baby
No one needs a woman like I need you
WeÂ'll walk by the side of
This rolling river
River wide keep rolling
Rolling out to the sea
IÂ'm down on my knees babe
You be like I please baby
No one needs a woman like I need you
