I wrote this down to say goodbye to you
I won't burn this bridge until you see this through

Let it go, so let it go now

Get back on your feet, no more excuses,
This is your chance, you don't want to lose this
Keep your head above the water, it'll be alright
But don't say these things if you don't mean them,
My heart got tired, but it's still beating
If you feel it come on sing it, oh oh oh

Sing oh oh, sing oh oh oh

The least we can do it try, the least we can do is try
And the clocks start ticking slow,
You bet it's time to go
