Don't run away, so inclined to take the easy way  
Don't cause a scene, don't decide you are through  
You're not so tough, things are rough, find a better way  
Something gets a hold of me when my head gets  
inside of you  
Call you, this is for you  
I will see you from a new view  
New tokyo is calling you  
You've got a way that distracts me from my everyday  
Not much to say, on our way, so let us through  
We're not afraid of the harmful things that you might  
say  
You might be right, we might be wrong  
Be strong, get ready to...  
We're not giving up  
Even after heavy casualties  
Things are looking up  
Songs are catching like it's some disease  
Your invention of some cruelty... oh please
