Well your burning kisses really turnin' me on
Honey I'm beggin' don't let me suffer too long
I just hold your hand it runs my temperature higher
So honey love me tonight let's put out the fire
Let's put out the fire before it burns out of control
I can feel your body sayin' yes and your lips are sayin'
no no no no
How much longer can we go on through this wild desire
Honey I can't last too much long so let's put out the fire
[guitar]
Well I used to dream about how good would feel to
hold you
But there's so many kinds in your line that you didn't
notice me
Honey you're everything I could live with desire
But when you're in my lovin' arms it might just put out
the fire
Let's put out the fire...
Let's put out the fire honey let's put out the fire
Baby let's put out the fire let's put out the fire
