V1

Feel it comin on, just like the song
That we played the other night
Just like they said, with the books youve read
Pages drift on through the night

Pre-Chorus

Never mind it will be alright
The truth is on your side
don't let me down, please don't let me down
Staying up to scratch the ceiling in the sky
Looking down at all the people passin by...

V2

Hear we go again, gaining speed
Soaring to hights you wont believe
I wish you luck, my friend as you desend
Going faster faster babe, you don't want to land...

Chours

don't Babe,
Bring me down, no no,
don't bring me down,

Outro

Feel it coming on now baby (x4)
Where did things go wrong for me baby (x4)
Was it jsut another way to make me cry (x4)
