Get back In Line

Verse 1

I was always looking in on you, from the outside
You making alligations, that don't ring true
Always looking down on me, like your special
Trying not to step on your new shoes, your see-through,

But I... I don't mind
For the things you do!

Pre-Chorus

Let me tell you right away
Got some business on my mind,
Take your shit and get away, don't waste my time,

Pole position, on your marks
Your going to get left behind
Funny how it all turns out
Not before time,

Chorus

Get Back in Line
(Get Back),
In line,
(Get Back)
In line,
(Get Back), You Better get back in Line.

Guitar Middle 8

Verse 2

Now it's you looking in on me, from the outside
Your still making alligations that, don't ring true
No more looking down on me, like your special
Table turned on you my friend, I've seen you

But I... I don't mind
For the things you do!

Pre-Chorus

Let me tell you right away
Got some business on my mind,
Take your shit and get away, don't waste my time,

Pole position, on your marks
Your going to get left behind
Funny how it all turns out
Not before time,

Chorus

Get Back in Line
(Get Back),
In line,
(Get Back)
In line,
(Get Back), You Better get back in Line
