Girl all them other boys can't do a thing like me
I can hold it down better and you'll see
That ima treat you better then them other boys would
And ima take you places that no other boy could

Yeahhh

I got a lot in my memory girl
So come on baby, wrestle me if you want to
And when you shakin it, you rock my world
I got my eye on you

So if you let me get with youu
Anything you want to
Ima put it on you
Get with you
Yea, you got me if you want me

Yeah, when I showed up you were all I see
Yeah, dancin on the table of the V.I.P.
I told myself that I was gonna get you shawty
So anything you got,
Come on and lay it on me

I got a lot in my memory girl
So come on baby, wrestle me if you want to
And when you shakin it, you rock my world
I got my eye on you

So come on, let me get with youu
Anything you want to
Ima put it on you
Get with you
Yea, you got me if you want me

Yeah if you let me get with you
Anything you want to
Ima put it on you
Get with you
Yea, you got me if you want me

Anyway you want it

I got it, baby come get it
I'm wid it and I aint just tryna hit it
Tell me how you got in those fitted jeans
With a body so super mean
Your the hottest I've ever seen
Girl I'll give you what you need
Just come on and roll with me
Ima turn up the stereo
You can give me a private show
It's all in my video
Where nobody has to know
Just hit tha floor, bump and grind take your time
Play the role of makin' you mine
Listen

I know I've only just met you girl
But I know that I can see myself beside you
And when you shakin it you rock my world
And now I gotta make it real wit you babyy

So come on let me get with you
Anything you want to
Ima put it on you
Get with you
Yea, you got me if you want me

Yeah if you let me get with you
Anything you want to
Ima put it on you
Get with you
Yea, you got me if you want me
