He ain't beside you
She ain't with me
Nobody in view
The city, the city
It's just us two

We've got a de-decision to make
Do we go or we stay?
Right now are we doing this walking away?

Don't say no
Keepin it low
They won't know
Breaking down is uncontrollable
We don't gotta move slow
They won't know
Breaking down is uncontrollable
I know how it feels, electric appeal
We gotta just let go, go
Don't say no
Keepin it low
They won't know
Giving up is uncontrollable

No need to worry
No need to go
Your secret is safe with me
The writing, the writing is on the wall

We had a de-decision to make
Do we go or we stay?
Right now are we doing this walking away?

Don't say no
Keepin it low
They won't know
Breaking down is uncontrollable
We don't gotta move slow
They won't know
Breaking down is uncontrollable
I know how it feels, electric appeal

We gotta just let go, go
Don't say no
Keepin it low
They won't know
Giving up is uncontrollable

It's uncontrollable, ey
It's uncontrollable, ey
It's uncontrollable, ey

We had a de-decision to make
Do we go or we stay?
Right now are we doing this walking away?

Don't say no
Keepin it low
They won't know
Breaking down is uncontrollable
We don't gotta move slow
They won't know
Breaking down is uncontrollable
I know how it feels, electric appeal
We gotta just let go, go
Don't say no
Keepin it low
They won't know
Giving up is uncontrollable
