1stV:

Tell me my restless known
No other can tell me what you know
You know you told me you'd let me know
If your gonna hold me or let me go it alone.

Chorus:

Alone... there is no compromise
Alone... we just let it in or let it slide
Alone... I will get by
Alone... there is no inbetween the lines
Besides me you got it all wrong, you gotta walk before
you crawl, replacing me with your little enuendo
Aint no big suprise baby that it don't mean nothing at
all.
But your showing me exactly what you want me to see
and your telling me exactly what you want me to hear
All this keepin me here like putting salt on the wing aint
no big suprise baby that it don't meen a thing... at the
end of the line.

2nd Verse:

Tell me before we go any futher are you waitin on the
big crash
You know you told me you wanna give it away, but
behind the scenes you were taking it back.
Alone... there is no compromise
Alone... we just let it in or let it slide
Alone... I will, I will get by
Alone... we are still alone alive
At the end of the line is there ever enough time left in
this world is there love at the end of the girl.
