Crushing you inside of my grip again  
You're breathing in  
Pushing this aside till when?  
Ignoring that pain  
Felt you creep inside of my head again  
It all depends on where I am and who I'm there with

It's rough when we're both square one  
With so much undone, who lost, who won?  
All rain, no sun

Don't want to have to speak to anyone

Said this will kill if you let it  
Somehow I forget  
I should be asleep, I shouldn't be upset  
Playing the victim  
While you're still here  
Blaming the future on things I fear  
Watch you blaming the future on things I fear

Waking up to gloom and routine again  
You're breathing in  
That air that dries your lungs  
But you kept our trust  
And said do what you must to be happy  
And I left with a debt that called me  
Out quick to be honest with it all  
So now I just sing about missing this and missing that  
But what will it really bring?

It's rough when we're both square one  
With so much undone, who lost, who won?  
All rain, no sun

Said this will kill if you let it  
Somehow I forget  
I should be asleep, I shouldn't be upset  
Playing the victim  
While you're still here  
Blaming the future on things I fear

Watch you blaming the future on things I fear

Just a special circumstance  
Where in lies the worst part that I can't accept  
Coming up on fall  
Are there things we haven't spoke on yet?  
Said you won't regret  
But you and I are one and the same  
Don't wanna have to feel numb  
I don't want this undone  
Don't wanna have to speak to anyone

Said this will kill if you let it  
Somehow I forget  
I should be asleep, I shouldn't be upset  
Said this will kill if you let it  
Somehow I forget  
I should be asleep, I shouldn't be upset  
Playing the victim  
While you're still here  
Watch you blaming the future on things I fear
