How I'd love to be around you when the lonely night  
surrounds you  
How I'd love to be alone with you  
What I'd give to have the power to read your mind one  
hour  
How I'd love to be alone with you  
Just to be with you one night you and me alone  
Kiss your lips and hold you tight and have you for my  
own  
This would be a joy unending could be a real beginning  
How I'd love to be alone with you  
[ guitar - steel ]  
How I'd love to be around you when the lonely night  
surrounds you  
How I'd love to be alone with you  
If I only knew for certain I'd cut out all my flirtin' how I'd  
love to be alone with you  
Just to be with you one night you and me alone  
Kiss your lips and hold you tight and have you for my  
own  
Won't you try to be my baby just for once and then well  
maybe  
I could always be alone with you I could always be  
alone with you
