(Ronald McCown)

Do my children call you daddy is my darling good to  
you  
I hope you're feeling happy cause I'm sure feeling blue  
And I drive by every morning see the man I used to be  
How does it feel to be the brand new mister me?

Down the street broken love I still see heaven up above  
And I can't believe that's where I used to live  
And Lord I wonder how to feel knowing it's my love that  
she gives  
How does it feel to be the brand new mister me?

--- Instrumental ---

No you didn't take her from me I left her there for you  
And in the nights that she got lonely that made her turn  
to you  
If I'd've shown the love she needed she would still  
belong to me  
How does it feel to be the brand new mister me?

Down the street broken love I still see heaven up above  
And I can't believe that's where I used to live  
And Lord I wonder how to feel knowing it's my love that  
she gives  
How does it feel to be the brand new mister me?

How does it feel to be the brand new mister me?...
