(Mel Tillis)

Same girl brand new wrapper
Back in town a running with my friends
Same girl brand new wrapper
Heaven help me here I go again.

They tell me that you've really changed
That I won't believe my eyes
But underneath that pretty wrapper
There's candy coated lies
Same girl brand new wrapper
Heaven help me here I go again.

--- Instrumental ---

I know I can't resist you 'cause time is not erased
Enough of your old memories or more to take their
place
Same girl brand new wrapper heaven help me here I go
again
Heaven help me here I go again...
