(Waylon Jennings - Bozo Darnell)

Down, down, down came the world  
I went 'round, 'round, 'round, 'round in a whirl  
I built every dream around one girl  
Then down, down, down came the world.

She must have loved a little  
Just to keep me hanging on  
How could lips that kiss so sweet  
Lie and be so wrong.

Our love was just a pattern  
Of the perfect boy and girl  
Then down, down, down  
Came the world.

Down, down, down came the world  
I went 'round, 'round, 'round, 'round in a whirl  
I built every dream around one girl  
Then down, down, down came the world.

Then down, down, down came the world...
