(Neal Davenport - Horace Davenport)

If you knew what I've found
You'd understand why I'm leaving
So I'll tell you that I'll go
She gives me love that I've been needing
We never had love the kind we both we'd deserve
Flowers never did grow like the kind I found with her.

I've been walking in Eve's garden, so in love in Eve's
garden
And watching love grow like I've never known
I've been walking in Eve's garden finding love in Eve's
garden
Deep in love that has grown like I've never known.

I'll be thinking when I'll go of the dreams that we
shared
So let's try to remember the good things we had
And the tears that may fall let them water your garden
When the right one comes along just like me won't be
sorry.

I've been walking in Eve's garden, so in love in Eve's
garden
And watching love grow like I've never known
I've been walking in Eve's garden finding love in Eve's
garden
Deep in love that has grown like I've never known...
