(Gary S. Paxton)

Darling, happy anniversary
Another year of love has gone by
Thank you for each day you give to me
My darling, happy anniversary.

Is not getting older much better
You bring so much happiness each day
Everything you are keeps me so in love
I thank to heaven that you came my way.

Darling, happy anniversary
Another year of love has gone by
Thank you for each day you give to me
My darling, happy anniversary.

--- Instrumental ---

Let a stop and count our many blessings
'Cause love like ours don't happen every day
And year after year we'll keep remembering
Our anniversary in a special way.

Darling, happy anniversary
Another year of love has gone by
Thank you for each day you give to me
My darling, happy anniversary...
