(Joyce McCord)

I caught a glimpse from heaven the day that I met you  
And darling, that's the first time I caught sight of it too  
We read the sign that told us we were not too far away  
And so we let our heart guide us to Happyville that day.

We live in Happyville on top of sunshine hill  
Where the dark clouds never hang around  
Our rainbows never fade love hangs in precious day  
This is where true happiness is found.

--- Instrumental ---

Just in case you wondering where Happyville might be  
It's anywhere you find it if you let your heart run free  
Just follow it and you will know the minute you get there  
For Happyville is just a hill that could be anywhere.

We live in Happyville on top of sunshine hill  
Where the dark clouds never hang around  
Our rainbows never fade love hangs in precious day  
This is where true happiness is found.

Happiness is found in Happyville...
