(Jerry House - Billy Burns)

Ties between us are broken
Papers we signed say we're through
And I've tasted each bitter word I spoken
And I always come back to loving you.

I always come back to loving you
I always remember sweet things you do
And no matter where I go or what I run into
I always come back to loving you.

--- Instrumental ---

Many times I tried forgetting
As I lay in the arms of someone new
But her cold arms just bring sure one mem'ry
So I always come back to loving you.

I always come back to loving you
I always remember sweet things you do
And no matter where I go or what I run into
I always come back to loving you.

I always come back to loving you...
