(Wayne P. Walker)

All friends say you'll tear me down  
That my loving you will leave me gutter bound  
I don't care what they say just as long as you will stay  
It's my love love love and I'm a gonna give it.

Talk is cheap and quickly spreads  
Many stormy days for us may lie ahead  
Still I plan to stand by you and darling win or lose  
It's my love love love and I'm a gonna give it.

It's my love and I'm a gonna give it in every way I can  
It's my love and I'm a gonna give it just as long as I can  
stay.

One day soon the tide will turn  
You and I will have sweet memories to burn  
For no matter what the price true love is worth the twice  
It's my love love love and I'm a gonna give it.

Yes, it's my love love love and I'm a gonna give it..
