(Mel Tillis)

Darling, let's go all the way tonight.

You go tell him, you go tell her
About the fire that's burning in our hearts
You go tell him, you go tell her
Darling, let's go all the way tonight.

So many times we tried before
To walk right up to their front door
And tell them everything that's going on
But stop and always turn us back
The dim cafe across the track
Where lonely lovers linger to go home.
You go tell him, you go tell her
Darling, let's go all the way tonight.

--- Instrumental ---

Forget the hurt, forget the tears
Forget the nights, forget the years
That loneliness was hiding in our hearts
You go tell him, you go tell her
Darling, let's go all the way tonight.

Let's go all the way tonight...
