"Living And Learning"

Visit "[Living And Learning](#)" on MotoLyrics.com

Now life is filled with ups and downs and we both had
our share

And everytime I slip and fall you're still there to care
(Together we can stand against the world as it goes
turning

And we'll go on through life together living and
learning)

Let's call all the fun we've had living living

Let's call all mistakes we've made learning learning

Reach out together and the love light's still burning

And we'll go on through life together living and
learning

[fiddle]

Well everytime old trouble comes a knocking on our
door

We stand and face it hand in hand like everytime
before

(We'll keep holdin' on and face each new day that
comes dawning

And we'll go on through life together living and
learning)

Let's call all the fun...

And we'll go on through life together living and
learning
