(Jerry House)

I reach out for something I don't have at home  
Now I've got that something though I know it's wrong  
My good girl won't love me way I think she should  
My good girl treats me better my bad girl treats me  
good.

My good girl's an angel except when I'm at home  
My bad girl's a devil except when we're alone  
I guess I messed up my life but I've done the best I  
could  
My good girl treats me better my bad girl treats me  
good.

--- Instrumental ---

Her sunshine smile awarm me but that sun went down  
Neon lights then called me and I went to town  
My bad girl said fair to me and I burned the blacken  
wood  
My good girl treats me better my bad girl treats me  
good.

My good girl's an angel except when I'm at home  
My bad girl's a devil except when we're alone  
I guess I messed up my life but I've done the best I  
could  
My good girl treats me better my bad girl treats me  
good.

My good girl treats me better my bad girl treats me  
good...
