(Buddy Mize)

When you kiss me you're kissin' some old memory
When I'm holdin' you I'm holdin' some old used to be
One of us is always searchin' for somebody new
It's hard to tell who's really foolin' who.

Somebody's puttin' somebody on
Inside I guess we've known it all alone
Half the world could prob'ly sing this song
Somebody's puttin' somebody on.

--- Instrumental ---

Now you pretend you love me but it's just a game
Then it's my turn to place so I'll pretend the same
Pay your nickel climb aboard and go on
I don't care who's to blame and I don't want to know.

Somebody's puttin' somebody on
Inside I guess we've known it all alone
Half the world could prob'ly sing this song
Somebody's puttin' somebody on...
